

Name: _____

Week of: _____

You Choose!

Directions: Try to choose at least one activity from every column. Staple all work to this paper when you hand it in.

	Daily Math	Math Book	Computer	Problem Solving
3 points	Complete as much Mountain Math as you can. (Possible 6 pointer!!)	Amazing Facts! Answer all of the questions on pages 74-75 in your math book.	Try the White House Math Challenge! Go to http://www.whitehouse.gov/kids/math/elementary/chl_260.html . Read the problem, and see if you get the right answer.	Play the game 24. Practice six 2-dot 24 cards. Write your answers on a piece of tablet paper and attach it to this paper.
2 points	Finish all of the problems on your Daily Word Problems- station A. (Try one problem a day).	Solve all of the problems in section c on page 413 in your math book.	Are you ready for Math Mayhem? Go to http://www.learningplanet.com/act/mayhem/mayhem.asp?sub . Click on Subtraction and play. <i>Warning- this game gets loud, so make sure to turn down the volume.</i>	How many sandwich combinations can you come up with? Try this at station C.
1 point	Stay current on your math words book. Write each definition neatly as we talk about each word.	Complete section b on page 415 in your math book.	How quickly can you figure out the pattern? Go here to test your smarts: http://www.funbrain.com/cracker/index.html	Can you figure out the mystery number? 1. This two-digit number is less than 100. 2. The number is odd. 3. The sum of the digits in the ones place and tens place is 13. 4. The number in the ones place is less than the number in the tens place. The number in the tens place is 2 less than 10.

*"You have brains in your head, you have feet in your shoes.
 You can steer yourself in any direction you choose."*

Dr. Seuss
